

B4000-8

BioClave™

Fully Automatic and Extremely Compact

- Models: BioClave 16 (Top) & BioClave 8 (Bottom)
- Chamber Vol.: 16L & 8L
- Chamber Dim.: 9x13.75"/23x35cm 6.7x12.5"/17x31cm
- Tray Dimensions: 6.5x10.75"/16.5x27cm 4.75x9.75"/12x24.8cm
- Ext. Dimensions: 22 x 17.5 x 15.7" 20 x 13.5 x 12.9"
- Weight: 89 lbs/40 kg 74 lbs/33 kg
- Electrical: 120/230V, 50-60Hz/1600W 120/230V, 50-60Hz/950W

- Highly Capable Instruments-Lowest Prices on the Market
- New Low Cost, Pre-Programmed, 8-Liter MiniClave
- Fully Programmable 16 Liter Unit
- Larger Units With Flexible Programming

B4000-16

Our new autoclaves are surprisingly affordable and very compact. Our 8-liter miniclave is pre-programmed to meet basic sterilization needs at the best price on the market. Although the temperature can be selected at either 121° C or 134° C, the sterilization time is fixed.

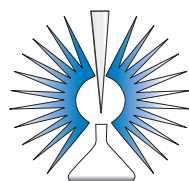

Our 16-liter autoclave offers three cycle options (standard programs), which are preset for the sterilization of liquids, wrapped instruments or unwrapped instruments/plasticware. A fourth option of "Dry Only" is also available for additional drying time to be added to the end of a cycle.

For special applications, all settings of the 16-liter unit are fully adjustable.

PHENIX also carries larger Benchtop Autoclaves. These larger units have flexible programming to handle most applications and come in a variety of capacities. Call for more information.

Cat No	Description	Price
